

LED BATTEN LIGHT FITTING

INDOOR

INTRODUCTION

The Synerji T8 Batten Fitting range is a robust lighting solution designed for T8 LED tube installations in 2ft, 4ft, and 5ft configurations. Supplied pre-wired for LED operation and fitted with a 6A fuse, the fittings support safe and efficient installation.

Constructed with a powder-coated steel body and integrated diffuser, the range delivers reliable performance and is suitable for residential, commercial, and utility applications requiring durable and adaptable lighting solutions.
