

VENTILATION FAN

INTRODUCTION

The Synerji 100mm Ventilating Fan is a compact, efficient unit ideal for bathrooms, toilets, and kitchens. It supports both ceiling and wall mounting (minimum height: 2.3m) and includes a 45cm power lead for easy installation. Powered by a 100% copper ball bearing motor, it delivers reliable performance, reduced noise, and extended durability—perfect for everyday residential or light commercial use.
